

TRBC-200L Waste Degradar

Product Description

TRBC-200L is a synergized blend of scientifically selected and adapted bacteria, enzymes, nutrients, and surfactants formulated for the biodegradation of a myriad of organic compounds found in domestic, municipal, commercial, agricultural, and industrial systems. **TRBC-200L** contains bacteria that are capable of producing extremely high levels of enzymes necessary for the rapid breakdown and solubilization of various wastes (substrates) such as fats, oils, grease, cellulosic fibers, and petroleum hydrocarbons to facilitate solids reduction and wastewater clarification. **TRBC-200L** is also formulated to inhibit the biological production of odors caused by gases (H_2S , etc.) and putrid, volatile organic compounds usually associated with anaerobic conditions.

Application Areas

Wastewater Activated Sludge Systems
Wastewater and Livestock Lagoons
Lift Stations
Grease Trap and Drains
Hard Surface Cleaning and Remediation
Septic Tanks and Drain Fields
Odor Control
Biological Nutrient Removal Processes
BOD, TSS, and Sludge Reduction
Plus Many Other Applications

Physical Properties

Form: Teal/green liquid
Odor: Perfumed fragrance
Shelf Life: 1 year guaranteed
Salmonella/Shigella: Negative

Dosage

Dosages will vary depending upon waste concentration/loading. Please consult your Technical Representative for a system evaluation and dosage schedule.

Typical Application Environment

Dissolved Oxygen, mg/l	0-2.0
pH	5-10
Temperature, °C	5-55
Temperature, °F	40-130
Toxic metals, mg/l	Trace-None
Nutrient Requirements:	
BOD:N:P	100:5:1
Micronutrients	Trace

Manufactured For:

T.L. Joubert & Assoc., Inc.
P.O. Box 820064
Houston, TX 77282-0064
281-558-7085

Storage and Handling

Store in a cool place. DO NOT FREEZE. Avoid eye and skin contact. Wash hands upon contact, or after use. Rinse eyes thoroughly if product comes in contact with eyes. Keep out of the reach of children. See MSDS for more information.

Packaging

TRBC-200L is available in 12-quart cases, 4-gallons cases, 5-gallon pails, and 55-gallon drums. Totes, bulk, or other specialty packaging is available upon request.
